

ICAP ETC 7.5.5 Release Notification

Dear Customer,

ICAP ETC version 7.5.5 will be released on **February 15, 2019** for packaging and deployment to all ETC users at your institution. Please note that this version of ETC has been approved for all global markets.

Deployment Options

- ETC Sync
- ETC Download
- ETC Lite

ETC Sync

ETC Sync will be delivered as an additional deployment option. ETC Sync allows customers to package and install once utilizing Numecent technology. Updates can be delivered by firm, by desk or even by user. Firm Admins via a portal can be set up so that customers can choose who and when to upgrade. Sync portal can be reached at:

<https://etcsync.icapcloud.com/> Logins will be emailed upon request.

ETC Download version 7.5.5

ETC version 7.5.5 can be downloaded from the ICAP website <http://etc.icap.com/downloads/>

The credentials for this website are as follows:
